ARCHIVE CONTENTS

This `Catalog.pdf` file describes the project artifacts and deliverables submitted for our development-track project. The deliverables include the following:

— Figma_Prototype	Project prototypes authored in Figma (https://www.figma.com). See <code>README.md</code> for usage instructions.
— Future_Work	Notes for future work.
— LTI_Integration	Instructions to integrate the Server Web App with Learning Management Systems using Learning Tools Interoperability (LTI).
— Priority_Matrix_Algorithm	An algorithm to generate a Priority Matrix plotting assignments by importance (weight in final grade) and urgency (time until due date).
— Local_Web_App	An operable version of the intervention. See <code>README.md</code> for usage instructions.
— Results	Results from surveys and peer evaluations.
— Server_Web_App	A PHP/MySQL implementation of the Executive Skills Questionnaire-Revised. See <code>README.md</code> for usage instructions.
